

Form H – Soil Contamination Review Questionnaire

All applications for subdivision, rezoning, or building permit or development permit where soil disturbance is likely are to be accompanied by a completed questionnaire in order to determine if your site will be subject to the Ministry of Environment and Climate Change Strategy's Site Disclosure Statement review for contaminated soil.

Please fill out and sign the following sections. If you are not the legal owner of the land, please complete the owner authorization section of the land use and development application form. Staff will evaluate this questionnaire and advise you if a Site Disclosure Statement application will be required.

A submitted Site Disclosure Statement will be reviewed for completeness and will be forwarded to the Ministry of Environment and Climate Change Strategy. Delta cannot approve your land use and development application until a legal instrument or a release is issued by the Ministry.

2. pulp mill operations		
3. pulp and paper manufacturing		
4. treated wood storage at the site of treatment		
5. veneer or plywood manufacturing		
6. wood treatment (antispain or preservation)		
7. wood treatment chemical manufacturing, bulk storage		

4. EXEMPTION REVIEW

Under certain circumstances, you may be exempt from submitting a Site Disclosure Statement even if you answer "yes" in the previous section. Please review and indicate if any of the following exemptions apply. Please attach copies of applicable correspondence from the Ministry of Environment regarding soil issues.

Yes No

- The site is subject of an Approval in Principle or Certificate of Compliance relevant to the current or any proposed use of the site **and** there is no reason to believe that further contamination occurred at the site after the Approval in Principle or Certificate was issued. *Please attach any correspondence from the Ministry or state the type and the date of the decision, and the Ministry of Environment file reference number.*

- A determination was made under the Environmental Management Act that the site is not a contaminated site **and** there is no reason to believe that any contamination occurred at the site after the determination was made. *Please state the date of the determination, and the Ministry of Environment file reference number.*

Yes No

- The site is part of a Wide Area remediation plan approved by the Director of Waste Management. *Please elaborate.*
-
-
- For subdivision applications:** the application consists only of an adjustment to the boundary of a parcel or is a consolidation of two or more parcels into a single parcel, or the subdivision is under Section 114 of the *Land Title Act*.
- For zoning applications:** the land is being used for an industrial or commercial use listed on this form and the industrial or commercial use will continue to be authorized on the land if the zoning was approved.
- For development or building permit applications:** the application is only for one or more of the following purposes (please select all that apply):
- Demolition
 - Installing or replacing underground utilities
 - Installing or replacing fencing or signage
 - Paving
 - Landscaping
- A site disclosure statement has already been submitted to the Ministry of Environment in relation to decommissioning or ceasing operations at a site as defined in the Contaminated Sites Regulation. *Please provide date of submission.*
-
- The land is in an operating area within the meaning of the Oil and Gas Activities Act.
- A site profile that relates to the land was submitted to the Ministry of Environment prior to February 1, 2021 and the land has not been used for an activity listed on this form after the date of the submission.

5. SIGNATURE

The person completing this questionnaire states that the above information is true, based on the person's current knowledge as of the date completed.
